KENTUCKY RELAY

Important Information Regarding Kentucky Relay

What is Kentucky Relay?

Kentucky Relay is a public service that guarantees all citizens access to prompt, professional and precise communication through a telephone. Consumers of these specialized services, specifically individuals who are deaf, DeafBlind, hard of hearing or have difficulty speaking, can communicate on the telephone via TTY, Voice Carry Over (VCO), Hearing Carry Over (HCO), Speech-to-Speech (STS), Spanish-to-Spanish and Captioned Telephone. This helps ensure the ability to connect with family, friends or businesses with ease.

How does the Kentucky Relay work?

Simply dial 711 to connect with Kentucky Relay. A qualified Communication Assistant (CA) will ask for the area code and the number of the person you wish to call and begin the relay call. Generally, the CA will voice the typed message from the text telephone (TTY) user to you. The CA then relays your voiced message response by typing it to the TTY user.

Specialized Services:

Kentucky Relay offers specialized services for individuals who have difficulty speaking and for Spanish-speaking residents. Specially trained CAs are on hand to assist in these types of calls by dialing the number provided. Since Kentucky Relay offers a variety of services please refer to the website listed, or contact Kentucky Relay Customer Care for more detailed instruction on how a particular call is processed.

Captioned Telephone:

Captioned Telephone is ideal and available for individuals with hearing loss that can speak for themselves. A captioned telephone works like any other telephone with one essential difference: it allows users to listen to their phone conversations while reading captions of what's being said to them.

Access to Services:

711 provides toll-free relay calling. If you are experiencing trouble dialing 711 while trying to reach Kentucky Relay, please contact Kentucky Relay Customer Care.

All TRS and English Captioned Telephone services are available 24 hours a day, seven days a week. Spanish Captioned Telephone is available daily from 8:00 a.m. to 12:00 a.m. EST or 7:00 a.m. to 11:00 p.m. CST. Consumers may place relay calls to English-speaking and Spanish-speaking people within Kentucky, across the United States, and even internationally. By law, each conversation is handled with strict confidentiality.

Special points of interest:

Equipment Distribution Program

The Kentucky Commission on the Deaf and Hard of Hearing's (KCDHH) Telecommunications Access Program (TAP) provides residents of Kentucky who are deaf, hard of hearing, have difficulty speaking or have both a hearing and vision loss, with landline or wireless equipment to make communication on the telephone more accessible. For more information, visit www.kcdhh.ky.gov/oea/howapply.html or call 800-372-2907 (Voice) or 502-416-0607 (VP).

Emergency Calls

Please note that 711 can only be used to reach Kentucky Relay. In an EMERGENCY you should continue to use 911. For emergencies, call 911 or your local emergency service TTY number directly and not relay. The Americans with Disabilities Act (ADA) requires that 911 centers have a TTY and be prepared to handle emergency calls placed in this manner. Kentucky Relay will make every effort to assist you in an emergency. However, it is important to understand that relay centers are **not** 911 centers and do not assume responsibility for emergency calls.

HOW TO STOP UNWANTED TELEMARKETING CALLS

WHAT IS THE KENTUCKY NO CALL LIST?

It is a list of residential and wireless telephone numbers of Kentuckians who want to reduce the number of unwanted telemarketing calls they receive.

IS THERE A NATIONAL DO-NOT-CALL REGISTRY?

Yes. The national registry has always been maintained by the Federal Trade Commission (FTC). In 2007, Kentucky's General Assembly mandated that the numbers previously placed on Kentucky's No Call List would be transferred to and maintained by the FTC.

If your number was placed on the Kentucky No Call List prior to June 2007, it has now been automatically transferred and placed on the National Do Not Call Registry. After June 2007, any Kentuckian who needs to do a new registration of their telephone number can simply contact the FTC. Any telemarketer who calls a registrant whose telephone number is on the list can be prosecuted by the Kentucky Attorney General's Office and fined up to \$5000 per violation, unless the telemarketer falls within one of the exceptions in the law.

WILL I GET ANY TELEMARKETING CALLS IF I'M ON THE NO CALL LIST?

The law allows certain telemarketers to continue to call consumers on the No Call List. The exceptions include calls from:

- Telemarketers who have a prior or existing business relationship with you.
- Telemarketers who have received an express request from you to call.
- Telemarketers with whom you have an existing debt or contract.
- Telemarketers soliciting only donations for charities.

HOW DO I SIGN UP FOR THE NO CALL LIST?

You may contact the FTC through its website, www.donotcall.gov, or by calling 1-888-382-1222 (TTY 1-866-290-4236).

DO I HAVE TO SIGN UP ON THE NO CALL LIST MORE THAN ONCE?

No. Unless your telephone number changes, you will remain on the list.

WHAT IS DONE WITH THE INFORMATION I PROVIDE FOR THE LIST?

The information provided is kept confidential and used only to compile the list. The only information on the list is your home or wireless telephone number. Only your telephone number will be provided to telemarketers to prevent them from calling you. It is a crime for anyone to use your information for any reason other than preventing unwanted telemarketing calls.

HOW LONG AFTER I SIGN UP DO TELEMARKETERS HAVE TO STOP CALLING ME?

Telemarketers have 31 days from the date that you register your number to stop calling you.

CALLER ID PREMIUM

Foothills Caller ID Premium feature is all of our Caller ID features wrapped up in one robust bundle. Within this bundle, you'll get Caller ID, Caller ID Name and Number, Caller ID On Call Waiting, Caller ID Blocking, and we've thrown in Anonymous Call Rejection to boot!

CALLER ID

Caller ID enables you to see the telephone number of the calling party before answering a call. You will also have a record of calls received while you were away. The caller's number is displayed on a special display typically located on the telephone.

CALLER ID NAME AND NUMBER

Caller ID Name and Number displays the name and ten digit telephone number associated with an incoming call as well as the date and time on the telephone set after the first ringing cycle. The first fifteen characters of the caller's name will be displayed, beginning with the last name. Name/Number display allows the subscriber to answer the call with a personalized greeting because you know who's calling. With this service, the subscriber has more specific information upon which to base the decision to answer or not.

Our Anonymous Call Rejection service is included with our CNAM feature. Read about Anonymous Call Rejection on page 12.

CNAM requires a telephone capable of displaying an alphanumeric set of characters.

CALLING ID ON CALL WAITING

Caller ID On Call Waiting provides the capability of delivering caller identity information (name and/or number) via Customer Premises Equipment (CPE) on an incoming call waiting call. The calling party hears audible ringing and the CIDCW subscriber hears call waiting alerting tones for this new incoming call.

Once the subscriber has received the calling identity information, the subscriber can decide whether to ignore the waiting call, interrupt the current call and hookflash to answer the waiting call, or end the current call in order to be connected to the new caller. With CIDCW, the subscriber is able to make an informed decision as to which of these options to take.

If the CIDCW subscriber already has a call in the waiting or held state, CIDCW treatment will not apply to any subsequent calls. Those calls will receive a busy signal and the CIDCW subscriber will not be alerted.

CALLER ID BLOCKING

In some occasions, for security reasons and protection of your privacy, you may not wish to have your phone number disclosed to the person you are calling. On such calls you can use Caller ID Blocking. There is no charge for Caller ID Blocking.

Caller ID Blocking may not work from telephones associated with PBX systems.

TO USE CALLER ID BLOCKING:

1. Press ***67**.
2. Listen for dial tone.
3. Make your call, for this call your telephone number will not be made available to the person you are calling.

If you dial a 1-800 number, the telephone number that you are calling from will be revealed to the called party since 1-800 numbers are toll free numbers and are paid for by the 800 service provider. Your calling number will be revealed to the 800 service provider even if you dial ***67**.

Remember, for each call that you don't want your phone number revealed, you must follow the above procedure.

NOTICE

STATEMENT OF BILLING ERROR RIGHTS

This statement sets out your billing error rights with respect to telephone-billed purchases made using interstate 900 pay-per-call services that are billed to you through Foothills Communications.

The rights and obligations of you, the customer, and of Foothills Communications and AT&T, MCI, U.S. Sprint, Telecom USA, who are billing entities, set out here, are provided under the Federal Telephone Disclosure and Dispute Resolution Act.

This is the procedure that you must follow to notify Foothills Communications of a billing error and the steps that we or your Long Distance Company must take in response to your notice:

You may provide notice of a billing error to Foothills Communications by telephone or in writing. If you write, you should:

- (1) give us your name or the customer's name, and telephone number to which the charge was billed;
- (2) tell us the date and amount of the error, and the type of error you believe occurred; and
- (3) tell us why you believe it was an error.

You should contact Foothills Communications first, since we have an agreement to receive billing error notifications from customers. You may provide a notice to your Long Distance Company instead, and it may ask you to contact us directly, and provide to you our name, mailing address, and business telephone number, even if it also sends your billing error notice to us.

A customer who orally communicates an allegation of a billing error is presumed to have provided sufficient notice to initiate a billing review.

You have the right to withhold payment of any disputed amount pending completion of our billing review, and any action to collect any disputed amount will be suspended pending completion of the billing review.

If it is determined that no billing error occurred, your rights and obligations are as follows:

We will transmit to you an explanation setting forth the reasons why it has been determined that there was no error. If there was an error - even a partial error or an error different than what you asserted - your account will be adjusted appropriately. If you request, we will provide a written explanation and copies of any documentary evidence of the customer indebtedness.

This action will be taken within two billing cycles (two months) after your notice is received. If you send your notice to your Long Distance Company, instead of Foothills, there may be an additional time of up to fifteen days to complete the necessary responsive action.

Your Long Distance Company will notify the provider of the service of the disposition of the billing error investigation and the reasons for that disposition.

Foothills Communications will notify you in writing, normally with your billing statement, of the time when payment is due of that portion of the disputed amount that is determined not to be in error. Payment must be made in the normal course of billing or as otherwise provided, but not less than ten days after the request for payment is made.

Once Foothills Communications and your Long Distance Company have complied with FTC rule § 308.7 (d) regarding a claim you make of a billing error, there is no further responsibility under that section if you continue to make substantially the same allegation.

You cannot be charged for a billing review.

The provider of the 900 service, your Long Distance Company, or Foothills Communications may take action to collect the sum outstanding that is determined not to be the result of a billing error if you continue to withhold payment of the disputed amount once the billing review is completed.

NOTICE

STATEMENT OF BILLING ERROR RIGHTS continued

Failure to pay the amount determined not to have been the result of a billing error may be reported to a credit reporting agency or subject you to a collection action. If you continue to dispute any portion of your billing error claim, the fact your account is delinquent will be reported only if we also report that the amount that remains is in dispute, the amount, and tell you to whom we have made such a report. If the dispute is subsequently resolved, that fact will be reported to all who received the initial report that the account was delinquent.

If either we, as your billing entity, or your Long Distance Company, as a billing entity, fails to follow the billing and collection procedures prescribed in § 308.7 of the Federal Trade Commission rule implementing the Federal Telephone Disclosure and Dispute Resolution Act, we are obligated to forfeit any disputed amount, up to \$50 per transaction.

DISCLOSURE UNDER FCC RULE § 64.1509 (b)

The FCC also requires disclosures to telephone subscribers, which are as follows:

Your local exchange and long distance service cannot be disconnected or interrupted as a result of your failure to pay charges for pay-per-call service, charges for interstate information services provided pursuant to a presubscription or comparable arrangement, or charges you have disputed for interstate tariffed collect information services.

You can obtain blocking of access to services offered on the 900 service access code where it is technically feasible, at no charge and on a one-time basis before January 1, 1994 or within 60 days after you subscribe to a new number and it becomes effective. Other requests for blocking, and requests for unblocking will be subject to a reasonable one time fee. Our tariffs include the terms and conditions that apply.

You have a right not to be billed for pay-per-call services not offered in compliance with Federal laws and regulations established under Titles II or III of the Telephone Disclosure and Dispute Resolution Act.

Your access to 900 services may be involuntarily blocked for failure to pay legitimate pay-per-call charges.
